NRCS/AMK/NTAG/CREHPA

August 2004

INDIVIDUAL QUESTIONNAIRE

[TO BE ASKED TO THE IN-SCHOOL AND OUT-OF-SCHOOL GIRLS AGED 10-19 YEARS]

Informed Consent

Namaste! My name is..... and I am working with CREHPA, not for profit research organization based in Kathmandu and conducting research on P. Health and RH since past 10 years. We are conducting a study to assess the awareness and knowledge about reproductive health among adolescent girls group in this district. The finding of the study will help AMK/NRCS/NTAG (mention whichever is appropriate for the district) to improve the ability of the group members to make informed decisions regarding reproductive health and to access health services and formal education. We would very much appreciate your participation in this study.

The interview will take between 45-60 minutes.

Whatever information you provide will be kept strictly confidential and will not be shown to other persons. Participation in this survey is voluntary and you can choose not to answer any individual question or all of the questions, if you don't like. However, I hope that you will participate in this survey since your views are very important to us.

May I begin with the interview now?

SECTION EA: KNOWLEDGE ABOUT OBSI

Instruction to Enumerators: We are inviting you to respond to a set of questions that will assist us to learn more about your knowledge of Birth Spacing. The girls may be confused about BS and Family Planning. Therefore it is important to explain the distinction between the two.

Optimal Birth Spacing Interval (OBSI) is the ideal time period between births associated with the healthiest outcomes for newborns, mothers, infants and children under five years of age. The best evidence to date suggests this interval is between three to five years after the birth of the last child. In order to space her births, a woman can use a modern method of family planning (FP). Women should be advised to wait at least two years after the birth of their last child before trying to become pregnant again.
